Wycombe Abbey employs significantly more women than men. The overall split amongst the workforce was 74% women and 26% men on 5 April 2017.

The gender pay gap is relatively small, in favour of women, who are better represented at a senior level than in the lower quartile.

The median salary for women is 2.7% higher than for men, and the mean salary 8.4% higher.

The School aims to ‘be at the forefront of girls’ boarding education’ and the presence of successful women in senior positions presents a good role model to the pupils, in keeping with this aim. It is not felt necessary to put steps in place to close the small gender gap divide.
